

ANNEX 9

Thanks for the reply Sally

Yes we do object to the garage selling alcohol at all.

My suggestion of 8-8 was based on the fact they already have a license which causes a lot of anti social problems. However, I feel 8-8 would remove most of these if they manage to retain the license (is there any police action to remove it?) and would allow them to profit from genuine trade.

Original representation

Thank you for bringing this to our attention.

We would like to register our opposition to this application.

The area around the garage attracts the type of job that has been evicted from Romsey centre - any extension of alcohol availability will cause a dangerous environment for those living, or passing through this area.

Is there a need for alcohol to be sold after 20:00? Surely, genuine purchasers will have realised they are low on stock by this time.

Please add our names to your objectors
