

ANNEX 17

Dear Sally,

We were very pleased that the 24 hour alcohol licence application had been removed but it seems ridiculous that they still want one for 18 hours! We see little advantage in this reduction in hours to nearby residents as vandalism tends to occur in the evening anyway when alcohol would still be available at this garage.

Alcohol is readily available in Romsey centre therefore why would we need a retailer selling it around here? We would never think of buying alcohol at a garage but of course it will be a very popular product for teenagers in cars who drive around the estate already like maniacs.

Can you please log our objections to the esso garage obtaining a licence to sell alcohol.

Yours sincerely,

David and Lisa Miller
10 Grayling Mead

Romsey

Original representation

My husband and I would like to register our objection to the ESSO garage all day license to sell alcohol.

We live on the Fishlake Meadows estate and neighbours have already had fences pulled down, we've had people knocking on the door then running away, there have been drunken youths walking up and down especially at the weekend.

As we are on the route through to the canal walk, we only see things deteriorating if this license is granted. Why do they need it anyway/

Kind regards

Lisa Miller
