

ANNEX 11

Dear Sally

We would be against any extensions from what is the current permissions. It is a problem waiting to happen. We are fed up now with all the increased youth traffic around the fishlake meadows area now which has grown from the new playground and canal walk development. Adding further alcohol opportunities would only serve to make matters worse. You have to question why people need to buy alcohol at midnight. It's not Mr & Mrs Average - it can only be youngsters who have not quite had enough during the evening. I would not support any extensions.

Is it possible for this comment to be passed onto to your colleagues and licensing officer etc

Alan & Emma Daniel

Original representation

Dear Mrs Lamb

I am a local resident of Fishlake Meadows and was concerned to read about the Esso garage applying for a 24 drink licence.

I would be totally against this as it would be a magnet for local youth trouble. It's getting worse now than it has ever been and local drinking all hours would fuel the fire.

When the garage sold hot food at night it attracted all sorts of young people milling around and I think 24 hour drink would also attract that negative aspect.

Thank you for bringing it to the local public's attention
