

ANNEX 7

Good news that the 24 hour license application has been withdrawn. However, I would like to make an objection to the license from 6am till midnight. As stated in my previous email, there is a lot of anti-social behaviour around Fishlake Meadows which I am convinced is as a result of youths being able to purchase alcohol from the Esso garage. It is very frightening when you see a group of about 20 youths outside your home, most of whom have had too much to drink. We must do everything possible to STOP this 6am till midnight license getting through. I feel VERY strongly about this.

My address for you to pass on is 31, Grayling Mead, Romsey SO51 7RU

Original representation

I saw your article in the Romsey Advertiser and felt that I must make an objection to the Filling Station being able to sell booze 24 hours a day.

I live in Grayling Mead, and we have in the past had many Friday/Saturday nights disturbed with yobs. They come in large groups i.e. 20 or so, are often drinking and making a nuisance of themselves. At the end of Grayling Mead, where my house is situated, is an overspill rain water dip which they like to sit around. The police have been called on various occasions to move them on; damage has been done to cars and property. The thought of them being able to buy drink 24 hours a day fills me with dread.

Thank you for taking the time to inform people and for fighting the cause on our behalf.
