To Whom it may concern,

We are raising our objection to Tesco's application for a liquor licence to be able to sell alcohol between the hours of 6am-11pm. We are already undated by youngsters hanging around at the front of the building, disturbing the peace. Recently we found a group of youngsters in our residents parking area at the side of the building, one of which was very drunk he was throwing the wheelie bins around that belong to the residents, he was hitting the cars, and one young girl was trying to restrain him. When they saw us approaching the others dragged him away, and they moved off towards The Drove area. This is before the store opens. The opening hours are also of concern to us, surely they could keep the same hours as the CO-OP which are 7am-10pm. It is totally unnecessary for them to open any different.

We also would want restrictions on delivery's, we do not expect to be disturbed in unsociable hours by somebody unloading crates and crashing about outside.

We've already had problems with people parking in residents parking bays and blocking the entrance so we couldn't get out. Please consider the people living above the store before making your decision.

Yours sincerely
