

Annex 63

I would like to object to the application put forward by Rownhams House for an entertainments license on the following grounds:

My property borders Rownhams House and its driveway.

1. At the current time, the noise from daytime traffic on it's gravel drive can be disruptive - Allowing a entertainments license will extend this disturbance into the night time. It is bad enough being woken up at weekends in the morning, but extending this to the night is quite another thing.

2. If, like the event hosted recently (as I now understand it - an illegally held event) carries on until into the early hours of the morning, will not only produce vehicle noise and access problems; along with the associated public safety issues, it may introduce a level of social activity and public disorder that cannot be handled by the current level of policing available in the area. I have no wish to fund, via my council tax, any increase in such policing to allow someone else to hold such events.

3. I feel that Rownhams is already surrounded by enough locations that can offer facilities that are equal or superior to any which Rownhams house could possibly hope to offer and that granting any license provides no benefit to anyone apart the owners of Rownhams House.

I hope this begins to expresses some of my displeasure,
