Dear Michael White,

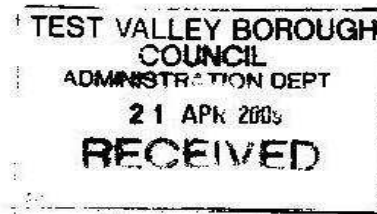

I am writing to you today to voice my **strong** objections to Roger Barber's planning application for a late night drinking and entertainments license. This will provide no benefits for any residents living in Rownhams.

The sound and environmental pollution this will create would destroy the tranquility of the surrounding community, as well as greatly depreciating property prices. The enormous gravel drive alone will be a reason to keep windows shut in the summer months if traffic increases further.

I hope you think about more than profits when making your decision and in doing so decline Roger Barber's application in favor of the entire residential population of Rownhams and their lives over an individual who more than likely does not live on the estate.

Sincerely,

Gagandeep Bedi
