

I have been told, and it is in the Andover Advertiser, that an application has been made for a licence to have a "sexual entertainment venue" at 43 London Road.

We already have a shabby looking sex shop in Junction Road, do we really need this in our town?

What next? A red light district in London Road?

I hope that you will not give them licence for a place that will make our town ~~into~~ into a place for immoral + unhealthy pleasures!

Dear Sir

I am writing to object to the planning application made by Ellis Cooper for premises to be used at 43 London Street for the purposes of 'sexual entertainment.'

Over the years a lot of work has been put into making Andover a desirable place for families to live and there is ongoing work with local retailers into making the town centre a pleasant, safe place to shop and enjoy social occasions. This type of shop will not be an attraction, and may indeed cause offense. Do we really want a 'seedy' town centre?

Please register my objection.

Dear Sir or Madam,

LICENSING OF SEX ESTABLISHMENTS – 43 LONDON ST ANDOVER

Regarding the above application, I confirm I wish to complain in the strongest terms possible.

This type of venue is not in keeping with Andover and would lower the tone. The town is family orientate, e.g. passing through town early evening to see the Christmas lights would be uncomfortable with children. Families would opt for a different route through town. Although we have pole dancing in "The George" another establishment would be detrimental to the area.

The proposed site is opposite "Life" - the only club in Andover for young people. Would you really want this type of entertainment mixing with young people, particularly discouraging females using the "Life" if there is a strip etc club opposite.

I complained a few years ago regarding a sex shop application in Junction Road Andover which I advised was neither needed or acceptable. Happily my point was proved as this shop is no longer trading and I believe any further establishment could not be sustained by the lack of clientele.
