

ANNEX 1

- a) The vehicle shall have at least 4 road wheels fitted with manufacturer's recommended size tyres, which – unless alloy – shall have matching wheel trims.
- b) The vehicle must also carry at least one spare wheel, a jack and wheel-brace all securely stored in a position not liable to damage passenger's luggage. The spare tyre should be of the same type as fitted to the road wheels.
- c) If a vehicle is fitted with a 'Space Saver' spare tyre or similar emergency repair system, these will be permitted if:
 - The type of space saver or other system is an original part of the vehicle's design specification.
 - The space saver tyre or other system is limited to use in an emergency situation only, at a maximum of 50mph. Distance and mileage is to comply with manufacturer's instructions.
