1.0 CONSULTATIONS/REPRESENTATIONS

1.1 1x email (3 Windmill Lane, Anna Valley). Support:

- Consideration of the application requires “*liberal quantities of common sense, natural justice and humanity*”
- Council has failed to establish a policy to support the needs of a unique section of society, namely Gypsies
- Supports the decision made by [NAPC] at its meeting in July to grant a temporary 2 year permission
- The family have become well established in the area of recent years such that they are entirely independent and self sufficient. Ms Richards is understood to be “*engaged in some form of social work locally*”
- The family should not be victimised because “*they have chosen a different way of life to us*”
- If permission is granted for a temporary period it would be inequitable to impose any planning gain obligations.
