NATURE OF APPLICATION

Application for a new Premises Licence.

DECISION

In reaching its decision on this application, the Sub-Committee has had due regard to the National Guidance issued by the Secretary of State under s182 of the Licensing Act 2003, to the Council's own Statement of Licensing Policy, and together also to the written representations duly made prior to today's hearing, and to the oral representations made here today.

The application has clearly attracted strong representations on both sides. The sub-committee fully understands the concerns expressed by local residents objecting to the application, but has not been able to identify any substantial reason, having regard to the licensing objectives, why the licence should be refused, and in those circumstances the licence is granted on the terms of the application, as amended, which is set out in Annex 2, page 38 of the agenda.

The Sub Committee would like to remind the applicant of the requirement to obtain planning permission for the use of the premises.
