- 2. Reptiles receive legal protection under the Wildlife and Countryside Act 1981 (as amended). Reptile habitat such as compost heaps and wood piles should be carefully cleared by hand during warmer months as if hibernating reptiles are disturbed they will die. Any reptiles revealed should be moved to adjacent retained rougher / boundary habitat or allowed to move off of their own accord. Where vegetation clearance is required during the active season (March to October), clearance should take place in stages down to ground level to encourage reptiles to leave the area of their own accord. The vegetation should then be kept short to prevent their return.**
- 3. A section 278 agreement will be required prior to constructing the access arrangements which may result in further design work being required to reflect the discussions held with Hampshire County Council and Departure from Standard.**
