2 Background

- 2.1 The overview and scrutiny process is an essential part of the Council's democratic structure and governance framework. It plays a key role in scrutinising the delivery and performance of Council services and holding decision makers to account through an approach based on positive pressure and constructive challenge.
- 2.2 Part of communicating scrutiny's role and purpose to the wider authority should happen through the formal, public role of full Council – particularly given that scrutiny will undertake valuable work to highlight challenging issues that an authority will be facing and subjects that will be a focus of full Council's work.

3 Options

- 3.1 The Annual Report has to be submitted to Council on an annual basis as set out in the Council's Constitution and therefore it is recommended that members consider the report and make any amendment they think may be necessary.
